***Birthday Party Packages and Shade Structure Rentals available: Please call for details***
Weather and Closing Policy

1. The City of Northfield Old Memorial Pool will not grant refunds if closed for any reason, (severe weather, water chemical imbalance, accident in pool).
2. The facility will close if the air temperature falls below 65 degrees, or inclement weather causes unsafe conditions.
3. Early Closing Policy/Procedure (see examples below)
   - **Example I:** If storms pop-up, causing unsafe weather conditions for more than 3 hours and staff has been sent home, the pool will close for the remainder of the day without re-opening.
   - **Example II:** It is cloudy and raining off and on during the morning and looks like it will remain that way the entire day. The temperature is above 65 degrees but it is not a good “pool day.” If, after three hours of operation, there are fewer than 15 patrons in the facility, the pool will close for the day.

***If you are unsure about the status, please call before coming.***
