**Northfield**— Save time at the polls by making sure you are pre-registered to vote. Pre-registration ends on Tuesday, October 16, 2018 for the November 6, 2018 election. Eligible voters can register to vote by completing and submitting a Voter Registration Application at least 21 days before an election. Voters can complete a voter registration application online at [mnvotes.org](http://mnvotes.org). Applications are also available at City Hall or the Northfield Public Library. Voters may still register at the polls on Election Day, but being pre-registered to vote will help avoid lines at your polling place on Election Day.

Residents should register to vote when any of the following take place:

- Upon turning 18 years old
- They have a name change
- They have a change of address

Voters can check to see if they are registered at their current address by going to the [mnvotes.org](http://mnvotes.org) website.
