TOP TIPS FOR WINTER DRIVING

SLIP AND SLIDE: TEST ROAD CONDITIONS FREQUENTLY

Periodically, check traction (available grip) when driving in challenging conditions. Road conditions can change drastically in a short period of time/distance in winter. Apply the brakes with moderate pressure to determine the available grip and modify your driving, if needed, to respond to ever-changing road conditions.

GRIP IT GOOD!

It's best to avoid braking or acceleration when negotiating a turn.

- 1 Brake before the turn
- 2 Negotiate the turn
- 3 Accelerate after the turn

YOU CRUISE, YOU LOSE

Avoid cruise control in wet, icy or snow conditions to maintain control of acceleration and deceleration at all times.
